

ENVIRONMENTAL STATEMENT:

Soundguard Acoustics Ltd recognises that all business, large or small, creates waste and consumes natural resources. The scale of our business means that our ecological footprint is relatively small, but we feel we can still make a difference and we are committed to minimising waste, reducing consumption and developing sustainable business practices, this commitment extends to continually reviewing and improving our environmental performance.

We do this in a number of ways:

- Minimising waste
- Only purchasing recycled paper for printing and stationery
- Recycling inks, plastics and waste
- Composting or recycling shredded waste paper
- Using efficient methods of transport
- Supplying reports by email, CD or flash drive to reduce printing
- Promotion of email invoicing
- Reduction in printed reports has reduced bulky postage items
- Actively purchasing equipment with lower energy consumption
- Make efficient use of electricity
- Fitting efficient light bulbs and promoting natural light and ventilation
- Turn off all lights and electrical stand by's every night and weekends

We also have a commitment to communicate our environmental aims and objectives to all staff, as well as to customers, investors and other external stakeholders. Our consultancy advice relating to acoustic installation also provides information on greener or recycled materials and the use of local sources and suppliers.

We continue to review our environmental impact and encourage and introduce greener and more ethical ways of working.

A handwritten signature in black ink, appearing to read "Rob Shaddick".

Rob Shaddick, MIOA
Director

April 2008
